

Nine out of ten children born with HIV live in Africa. Many die before they reach the age of 2 due to limited treatments specifically made for children. Since there is little profit in researching and developing HIV/AIDS tests and medicines for children in poor countries, few companies are investing in this area.

# Inequality matters.

This initiative was made possible by the generous support of more than 16,000 AIGA members in 54 chapters and more than 150 student groups nationwide; the Human Development Report Office for the United Nations Development Programme; and designers everywhere who believe in the power of design for the public good.

A public service  
initiative of AIGA.
