

## Death of Children

Under 15 Due to AIDS

Eastern and Southern Africa	290,000
Latin America and Caribbean	11,300
Middle East and North Africa	5,600
South Asia	30,300
West and Central Africa	160,000
High Income Countries	<300
CEE/CIS	1,100
East Asia and Pacific	9,100
<b>World Total</b>	<b>510,000</b>

Note: The data shown are for 2004. The estimates used have been rounded, therefore the world total is not the exact sum of the rounded regional estimates.  
Source: UNAIDS and WHO, AIDS Epidemic Update: December 2004, UNAIDS, December 2004.

**Children** under 15 account for 1 in 6 global AIDS-related **deaths**. A **child** under 15 **dies** of an AIDS-related illness every minute of every day.

When you finish this sentence **1 child** will have **died** from an AIDS-related illness.

**Inequality matters.**

This initiative was made possible by the generous support of more than 16,000 AIGA members in 54 chapters and more than 150 student groups nationwide; the Human Development Report Office for the United Nations Development Programme; and designers everywhere who believe in the power of design for the public good.

A public service initiative of AIGA. For more information visit [www.aiga.org](http://www.aiga.org).
