BACKGROUND
In 2013, Antionette Carroll, St. Louis Chapter President asked, ‘what could AIGA do as an organization to address the lack of diversity and inclusion in the design industry?’ This led to the third iteration of the Diversity & Inclusion task force in 2014.
MISSION

Encouraging diversity in design education, discourse, and practice to strengthen and expand the relevance of design in all areas of society. We do this by:

- Celebrating a diverse array of designers
- Cultivating greater opportunity, awareness of diversity issues and inclusive design cultures
- Connecting with students, emerging designers, and like-minded groups
PURPOSE

Rooted in equity, one of AIGA’s core values, the organization is committed to creating an inclusive environment where diverse voices are active in all aspects of the organization. The benefits of this task force is that it:

- Works to increase representation
- Creates a sense of community
- Gives a voice to marginalized designers to effect change for all designers
CURRENT STATUS
The chair’s role is tasked with leading a team of professionals that will collectively educate and bring about further awareness around issues of diversity & inclusion in design. The chair coordinates and plans activities in collaboration with task force members, the Chair Emeritus, and AIGA’s national office, particularly strategic initiatives and chapter development departments.
Task force members provide support to the initiative by raising awareness, offering guidance to the organization, its members, and by participating in purposeful dialogues and activities. Member support is collaborative and instrumental in establishing objectives that are aligned with AIGA’s mission and current work focus.
ORGANIZING THE TASK FORCE

To ensure sustainability and increase the productivity of the task force, sub-committees were developed to allow members to work in targeted areas and also provide leadership opportunities.
The task force is organized into four action-oriented committees to ensure its long-term sustainability and to increase productivity.

- Programming development and implementation
- Content and awareness
- Education and community
- Guidance and support

MILESTONES & ACCOMPLISHMENTS
INCREASING PRESENCE AND VISIBILITY

Our interest is both national and local. How will this be achieved?

• Influencing internal policy
• Contributing to community awareness
• Developing a robust D&I webpage

• Being available to offer guidance as needed
PRACTICES AND PROCEDURES

As the task force grows and evolves, sharing best practices is key to its sustainability:

- Outlining committee monthly goals
- Producing programming models
- Providing research and data collection
CREATING A STAFF POSITION

In 2015, an AIGA 2020 Vision Fund Grant was written for a full time staff position.
